

To The Judge or Commissioner regarding Lee versus Lee

I am Christina Bressi, the daughter of Kirsten and I once thought, Troy Lee I have done my best to keep out of this mess but Troy is not telling the complete truth, and he hasn't since this whole thing started Number one, he told me he beat my mom up He also admitted in court right in front of me There is no question that my mom is telling the truth about the "event" that happened in late January. I also want this court to know that Troy is lying about me mom harassing him. The tytruth is, they have BOTH broken the restraining order And it wasn,t my mom that called from a restricted number all those times, a lot is was ME because even though Troy claims he is still my dad, he refuses to meet with me or answer my calls I also witness someone from his work try to call my mom, but she didn't answer. I also came over to my moms when she was talking to Troy, and the conversation lasted 45 mintres when I was there, I don't know who called who, but he definitely was not hanging up! He also came to her HOUSE to take her little brother Michael to the doctor, so it is a joke that he is trying to get her in trouble

I also want you to know that I love Troy very much But the way he has treated us has been bad just so he can have a new life with his new family I know my mom has tried to call him and even set up a meeting so I could get some things off my chest. This is something I asked her do He says he is still there for us But when he left my mom, he left us all, exopt for Micheal, he goes to Troys and they give him beer even though Troy knows he has a bad drug and alcohol abuse problem

So, I am not on anyones side, but I cant sit back and let Troy keep doing this

Please call me at either of these numbers if my testimoney is necessary

I swear I am telling the TRUTH.
