## How to get the COVID-19 Vaccine?

- [Washington State's Phase Finder online tool \(https://form.findyourphasewa.org/210118771253954\)](https://form.findyourphasewa.org/210118771253954) can confirm your eligibility and provide you with a list of possible vaccination locations. [www.findyourphasewa.org](http://www.findyourphasewa.org) (<https://form.findyourphasewa.org/210118771253954>).
- You can also find a list of vaccine locations by county [here](https://www.doh.wa.gov/YouandYourFamily/Immunization/VaccineLocations) (<https://www.doh.wa.gov/YouandYourFamily/Immunization/VaccineLocations>).
- Please do not call your healthcare provider to see if they have the vaccine. Healthcare provider phone systems are being inundated with calls about the vaccine availability and this is making it difficult for them to triage emergent patient calls. We encourage you to check your healthcare provider's website for information about the COVID-19 vaccine.
- For more information about the COVID-19 vaccine, please visit the [vaccine page](https://phss/coronavirus/Pages/coronavirus-vaccine-info.aspx) ([/phss/Coronavirus/Pages/coronavirus-vaccine-info.aspx](https://phss/coronavirus/Pages/coronavirus-vaccine-info.aspx)).

## Healthy Washington - Roadmap to Recovery Phase: 2

Thurston County is in Phase 2 of the [Healthy Washington - Roadmap to Recovery](https://www.governor.wa.gov/sites/default/files/HealthyWashington.pdf?utm_medium=email&utm_source=govdelivery) ([https://www.governor.wa.gov/sites/default/files/HealthyWashington.pdf?utm\\_medium=email&utm\\_source=govdelivery](https://www.governor.wa.gov/sites/default/files/HealthyWashington.pdf?utm_medium=email&utm_source=govdelivery)) (effective 1/11/21).

**On January 28, 2021, Governor Inslee announced the west region, which includes Thurston County, will move to Phase 2 of the Roadmap to Recovery. Phase 2 will take effect on Monday, February 1, 2021. (new)**

**We continue to recommend residents of Thurston County take precautions to prevent the spread of COVID-19.**

## Coronavirus (COVID-19)

Coronaviruses are a large family of viruses that usually cause mild respiratory illnesses, such as the common cold. Some coronaviruses have caused more severe illness, such as Severe Acute Respiratory Syndromes (SARS) and Middle East Respiratory Syndrome (MERS).

[Coronavirus disease 2019 \(COVID-19\) \(https://www.cdc.gov/coronavirus/2019-ncov/cases-updates/summary.html\)](https://www.cdc.gov/coronavirus/2019-ncov/cases-updates/summary.html) is a new virus strain that was not identified in humans before December 2019. COVID-19 is a public health concern because it is a novel virus and it has the potential to cause [severe illness in some people \(https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/people-at-higher-risk.html\)](https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/people-at-higher-risk.html).

- Currently, there are vaccines available for COVID-19. For more information about the vaccines, please visit the [vaccine page](#) ([/phss/Coronavirus/Pages/coronavirus-vaccine-info.aspx](#)).
