Case 17-09214

On the date below, George West and I were staying at the Little Creek Hotel because escrow had not closed on the house. He said he was sick and did not leave the hotel room. I brought a Domino's pizza back to the room per his request and he did not like it.

Case 17-09214

George West had a handgun in his carry on at the airport.

On Thursday, March 9, 2017 6:03 PM, George West <gw8374@outlook.com> wrote:

Dear Sir: This TSANOV was signed and dated February 24, 2016. Because it was forwarded from my Previous Address it was not received by me at my new address until March 8, 2016. According to the instructions in the Nov letter I have only until March 24, to reply in writing to TSA:

I checked a loaded, small, .22 caliber revolver in my valise at the TSA checkpoint at SKY MESA, a secondary airport in the Phoenix area. My spouse and I were travelling from our home in Arizona (now in escrow) to Washington State to search for a house.

As you may know Arizona is an open carry state. I ordinarily kept the small pistol in my car due to the high incidence of armed assault in the greater Phoenix area.

The day before the incident I had taken my car to Costco to have four tires replaced. I removed the small pistol from the car and placed it in a valise and took the car to be serviced. When I returned home that evening I packed for the next days air travel forgetting to remove the pistol from my valise. I was unaware of my error due to the stress of travel to another state to find a new house.

Sky Mesa airport does not use TSA personnel for security screening as it is a small secondary airport in South Mariposa County. Airport screening is done by Mesa City Police. When the luggage for my spouse and myself was scanned the pistol was easily discovered. The police officer was very courteous and asked me to sit in the screening area while they "ran" a CI &I". He told his peers it came back, "all zeros." I was not detained and I was not questioned further.

As a retired law enforcement officer from the California Dept of Corrections and a Licensed Clinical Social Worker in both Washington and California, (as well as serving on the staff of Presidents Kennedy and Johnson), I have been in the FBI data base for security screenings since age 19. ( I am now 73 years of age.) I told the police officer of my deeply felt embarrassment as I have never had any issues in my personal or private life until that moment.

A few moments later the officer walked my spouse to the parking area and handed the pistol and ammunition to her and told her to put it in our car. When she returned to the terminal we were allowed to board our flight to Seattle without further issue or delay and left on time.  
Please contact me via telephone or e-mail at your earliest convenience.

Sincerely,  
George R. West

George West took me and the dog in the front of his truck. He bought a breakfast sandwich for the dog. The dog ate it and threw up in the truck. George started screaming and yelling. There was no place for the dog or myself to go. George West called me a bitch, cunt, whore, and told me to "Fuck off!" George West told me that I was stupid and called me retarded. George West told me that I was responsible for the dog. The dog threw up again in the truck.

Hello Detective,

Attached are pictures of the bathroom. The home at 11 E. Susan Pl., Union, WA has 2 bathrooms, one in the hall and one through the master bedroom. Approximately 5 weeks prior to my leaving, George removed the toilet and the sink in the hall bathroom, which was my bathroom. I stayed in the "guest" bedroom most nights. I had limited access to the master bathroom as George West became infuriated and yelled and demeaned me if I woke him up. I left the house and went to Walmart to use the bathroom.

Detective,

George West talked about burning down the house constantly during the months of May and June 2017. After some brush was cleared from the yard, there was a big hole from the original digging of the septic. I was taking rocks from one side of the yard and filling the hole. George West told me around mid June 2017, to quit filling the hole with rocks because he was going to shoot the dog, a 6 month old Doberman puppy, and throw her body in the hole. I took the dog and placed her with Adopt a Pet in Shelton. I realized that the puppy had been taking the abuse directed towards me from March until June 2017. The puppy would run and hide in the other bedroom to get away from George and when she could not and George West continued to yell at her, she peed on the floor or in her dog bed. Prior to my giving away the puppy, George West told me that he, George West, needed to bite his Doberman puppy on the nose to teach her who was in charge.

George West told me that he had a dog with his ex-wife and the dog dug holes. He, George West, had filled a hole with water and held the dog under water until the dog passed out; George West's ex-wife told him he was abusing the dog. George West told me that the dog never dug another hole.

When we moved to the house, A local contractor, Jeff, came to the house about some work. George West insulted Jeff telling Jeff that he, George West, could do the job better. George West continued to belittle me, Gretchen Jacobs, in front of Jeff. Jeff got in his truck and drove away. Later, Jeff's wife told me that he would not work for George West because of the way that he treated women, me, Gretchen Jacobs.

In November, 2016, George West hired a company to replace the gutters on the home. During the snow, all of the gutters fell off of the roof. I contacted the gutter installer. George West talked to him and threatened him. I was able to work out that the installer returned and repaired and replaced the gutters. It was a very cold day when the installers returned. George West screamed and yelled at me to stand there and watch everything that the installers were doing. George West did not come out of the house because, he, George West, was going to lose his temper. George West locked me out of the house and I feared for my safety. I stayed outside until the gutters were completed. I was cold and needed to use the bathroom.

At least 3 times while in the truck with George West driving, he took out a loaded Ruger .22 from a compartment below the radio in his Dodge truck and pointed the gun at other drivers. George West became angry and aggressive if other drivers were not moving fast enough or changing lanes and going in front of him.

Gretchen Jacobs

and stated that he could not handle being in jail. He begged me to try and contact Gretchen, and plead with me to get her to drop all charges against him. I asked George if he had done any of the things that Gretchen had stated, to which he answered that he might have, but couldn't remember. He stated that he had hired an attorney at which time he provided me his name and phone number. I did call the attorney and the attorney requested that I ask Gretchen to drop all charges, in writing. I did inform Gretchen of the request made by George and his attorney.

I started receiving multiple calls from George on the 28<sup>th</sup>. He was very upset and said that unless Gretchen dropped all charges, he was a dead man because of the things she had said and that he could not go to jail. He stated that he would just kill himself before the end of the month. He continued to get louder and more angry and so I hung up on him.

He continued trying to reach me and I finally stopped answering the telephone.

After receiving his multiple calls, some threatening, and stating that he was going to commit suicide, I have been very alarmed and in fear for my daughter and myself.

Multiple horizontal lines for writing.
