MTST 165
Motion to Shorten Time

Motion

Comes now, Heather Wood, Pro Se litigant and Mother of Adeline Feulner, moves the court for an order to shorten time required to note motions, and request the Court hear this Motion to Strike and Objections to Jurisdiction and Venue. This motion is supported by the attached declaration:

Declaration:

I am the mom of Adeline Feulner, and since coming to the Courthouse for hearings have seen many documents defective-on-their-faces by either switching the Petitioner/Respondent names, in referring to this Proposed Parenting Plan as a Parentage Case, or clerk's notes referring gratuitously to the child as a "victim". Though we have established by Order that I, Heather Wood, am the true petitioner, the record remains incorrect and contains many facially defective documents. There are other matters to be heard on 1/26/2024, my motion is in concert with the other motion to be heard, and will require no extra work by the parties. This Motion to Strike will be welcomed by all parties and Court and can proceed together in an orderly manner with
